Front-End Developer

bolu.onukwu@gmail.com

8, Unity Estate, Unity Close, Iju-Ishaga Lagos

SUMMARY

Frontend Developer with a strong foundation in modern web technologies including HTML, CSS, JavaScript, and

React. Currently leveling up to Full Stack Development by gaining hands-on experience with backend technologies such as Node.js, Express, MongoDB, and Python. Passionate about building responsive, user-focused applications and continuously expanding technical skills to deliver complete end-to-end solutions.

Open to opportunities that challenge my growth and allow me to contribute to impactful projects.

PROFESSIONAL EXPERIENCE

Frontend Developer – Portfolio Project

Self-Initiated | Remote

Live: www.onukwuboluwatife-portfolio.vercel.app

- Designed and developed a personal portfolio website using HTML, JavaScript, and Tailwind CSS.
- Created a responsive navbar with a custom light /dark mode
- Showcased projects, skills, and background in a clean, responsive layout optimized for all devices.
- Focused on smooth navigation, interactive components, and consistent design with utility-first CSS.
- Continuously updating the site to reflect new skills and projects as part of personal branding.

Frontend Developer – Startup Website (BolsTech)

Freelance / Personal Brand Project | Remote

Live: <https://bols-tech-corp.vercel.app/>

- Built the official landing page for BolsTech, a tech startup brand, using HTML, CSS, JavaScript, and Bootstrap.
- toggle positioned outside the hamburger menu.
- Ensured mobile-first responsiveness and cross-browser compatibility.
- Focused on clarity, structure, and usability to reflect the brand's services and offerings.

Frontend Developer – Web Projects

Self-Led | Remote – 2023 – Present

GitHub: <https://github.com/Boluwatife180872>

- Developed multiple interactive web apps such as a Quiz App, News App, Recipe Finder, and Music Finder.
- Utilized modern JavaScript (ES6+) features and API integration for real-time data rendering.
- Applied responsive design, DOM manipulation, and clean UI practices across all projects.
- Continuously improving and learning through hands-on coding and building real-world frontend experiences.
